

ENVIRONMENT POLICY

JWIL Infra Limited accords high priority to the protection of environment, while helping in building a world class water infrastructure in the country.

In this endeavour, we are committed to,

- Integrate environmental protection into every aspect of our business.
- Adopt environmentally friendly construction methods and practices.
- Create assets that are aesthetically appealing, optimise the use of energy and causing minimum impact on the environment.
- Make all efforts for creating environmental awareness among our employees, customers, partners, clients, suppliers, sub-contractors, and vendors.
- Comply with all environmental and pollution control regulations during the construction activities.
- Conserve company and natural resources by careful management of emissions and discharges, and by minimizing waste generation.
- Ensure conformity with this policy and continual improvement through comprehensive compliance program, including periodic audits, development, and review of performance indicators.
- Ensure that all employees are held responsible for compliance with all policies, procedures, practices, and laws applicable to their duties.
- Provide suitable training to enable employees to deal with their specific areas of environmental control.
